

2011 Summit Innovations Worksheet

Title of Innovation

Web-Enhanced Person Centered Assessment Tool (WEP-CAT)

Be a Hep Cat, use the WEP-CAT!

Brief Description

Develop software for self and/or navigator-connected web-based WRAP plan (holistic). Support training for consumers and providers in how to use, interpret, and implement plan.

Target Population

Health care consumers and the professionals who wish to be useful to them.

Why is This a Disruptive Innovation?

Attempt to concretize the concepts of recovery, resiliency, and patient-covered care driven by consumers as experts in partnership with other workforce members.

Benefits?

- Low cost, high yield.
- Speaks to new generation
- Potentially interoperable with electronic health record.

Challenges?

- Conflict with proprietary software.
- Provider reluctance.

Funding?

Venture capital.

First Steps to Take?

Win today's ACMHA dollars in the marketplace!
